**PURCHASE AGREEMENT
FOR
ESRI SMALL GOVERNMENT ENTERPRISE SUBSCRIPTION**

THIS AGREEMENT, County Contract **C001086**, awarded for Sole Source **167-123123SS**, dated the 17th day of March 2026, is made between Boone County, Missouri, a political subdivision of the State of Missouri through the Boone County Commission, herein "County" and **Environment Systems Research Institute, Inc.** herein "Vendor."

IN CONSIDERATION of the parties' performance of the respective obligations contained herein, the parties agree as follows:

1. **Contract Documents** - This agreement shall be for the Esri Small Government Enterprise Annual subscription and incorporate Esri Quotation number Q-566726 dated February 02, 2026, incorporated into the contract as **Attachment One**, the Esri Master Agreement Product and Services document incorporated into the contract as **Attachment Two**, and Boone County's Standard Terms and Conditions. All such documents shall constitute the contract documents which are attached hereto and incorporated herein by reference. Service or product data, specification and literature submitted with bid response may be permanently maintained in the County Purchasing Office contract file for this contract if not attached. In the event of conflict between any of the foregoing documents, this Purchase Agreement and Boone County Standard Terms and Conditions shall prevail and control over the Contractor's quote response. All transactions under the Purchase Agreement must reference the contract number referenced above.

2. **Contract Duration** - This agreement shall commence from **May 04, 2026, through May 03, 2029.**

3. **Purchase** - The County agrees to purchase from the Vendor, and the Vendor agrees to supply the County with the following:

Quote Q-566726:				
Qty	Material#	Term	Unit Price	Total
1	193207	Year 1: Esri Small Government Enterprise Agreement – Annual Subscription	\$90,300.00	\$90,300.00
1	193207	Year 2: Esri Small Government Enterprise Agreement – Annual Subscription	\$90,300.00	\$90,300.00
1	193207	Year 3: Esri Small Government Enterprise Agreement – Annual Subscription	\$90,300.00	\$90,300.00
			Sub Total	\$270,900.00
			Grand Total	\$270,900.00

3. **Billing and Payment** - All billing shall be invoiced to the **Boone County Information Technology Department**, 801 E. Walnut Street, Room 220, Columbia, Missouri 65201-4890. Billings may only include the prices listed in the vendor's quote response. No additional fees for paperwork processing, labor, or taxes shall be included as additional charges in excess of the charges in the Vendor's quote response to the specifications. The County agrees to pay all invoices within thirty days of receipt. In the event of a billing dispute, the County reserves the right to withhold payment on the disputed amount; in the event the billing dispute is resolved in favor of the Vendor, the County agrees to pay interest at a rate of 9% per annum on disputed amounts withheld commencing from the last date that payment was due.

4. **Entire Agreement** - This agreement constitutes the entire agreement between the parties and supersedes any prior negotiations, written or verbal, and any other bid or bid specification or contractual agreement. This agreement may only be amended in writing by the Boone County Purchasing Office using the same formality as this agreement.

5. **Binding Effect** - This agreement shall be binding upon the parties hereto and their successors and assigns for so long as this agreement remains in full force and effect.

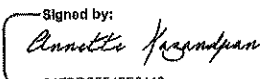

6. **Termination** - This agreement may be terminated by the County upon thirty-day advance written notice for any of the following reasons or under any of the following circumstances:

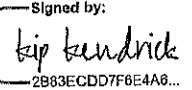

- a. County may terminate this agreement due to material breach of any term or condition of this agreement, or
- b. County may terminate this agreement if in the opinion of the Boone County Commission if delivery of products are delayed or products delivered are not in conformity with bidding specifications or variances authorized by County, or
- d. If appropriations are not made available and budgeted for any calendar year.

IN WITNESS WHEREOF the parties, through their duly authorized representatives, have executed this agreement on the day and year first above written.

REQUEST TO HIRE ABOVE FLEXIBLE HIRING MAXIMUM BOONE COUNTY

Description of form: To request approval to hire between 86% - 120% of the salary range mid-point

Procedure:

1. The Administrative Authority or designee completes the form and prepares a schedule that demonstrates that funding is available within the salary and wage appropriation (account #10100) and calculates the amount for a budget revision, if needed. The Administrative Authority submits the form, the schedule, and the budget revision (if needed) to the Auditor for certification of funds availability.
2. The Auditor certifies funds availability and approves budget revision (if applicable) and forwards to Human Resource Director.
3. The Human Resource Director reviews the information, makes recommendation, and schedules the request on the Commission agenda for approval.
4. The County Commission will review all requests for a starting salary above the flexible hiring limit and will either approve or deny the request. After approval/denial, the County Commission will return this form to the Administrative Authority.
5. The Administrative Authority will list the Commission Order number approving this request on the electronic Personnel Action Form.

Name of prospective employee Edward Gulan Department 1261 - Prosecuting Attorney

Instructions for Boone County Fixed Asset Addition

1. The *Fixed Asset Addition* form is available at S:\ALL\AUDITOR\accounting forms\Fixed Asset Addition.
2. Use the Fixed Asset Addition form whenever the county acquires property or assets that need to be added to inventory. This form should be completed and submitted before or with payment for the asset.
3. The *Description of Asset* field should reflect the common description used in daily operations. The same description should be used for similar assets. For example, all copiers will be described as “Copier” with the specific make and model entered in the corresponding fields below. Consistent descriptions will make the field easier to search when looking for similar assets.
4. The *Specific Location* of an asset within a department is helpful for conducting physical inventories. Examples: Room 123, Deputy Director’s Office, on the south wall.
5. The *Cost* of the asset is made up of the cost for acquiring the asset and preparing it for its intended use. It should include shipping and installation costs, if applicable. If the County acquired the asset without payment, provide an estimate of what it would cost to acquire the asset (fair value) & attach documentation. An example of documentation would be a print screen of the purchase price of a comparable item.
6. Complete the fields for *Make, Model, and Serial Number* as this is the best way to positively identify an asset. If one or more of the fields aren’t applicable, leave it blank; for example, furniture items generally do not have a serial number. .
7. Complete the *Grant Information* section, if applicable. This section should be completed if grant funds were used to purchase the asset or if donated assets require grant compliance.
8. Forward completed form to the Auditor’s Office.
9. The Auditor’s Office will forward an asset tag to appropriate department personnel. Affix tags where they are visible and easily accessible for inventory identification. Or if indicated on the form, place the tags in the department’s Tag Book.

2. Use the Fixed Asset Addition form whenever the county acquires property or assets that need to be added to inventory. This form should be completed and submitted before or with payment for the asset.
3. The *Description of Asset* field should reflect the common description used in daily operations. The same description should be used for similar assets. For example, all copiers will be described as "Copier" with the specific make and model entered in the corresponding fields below. Consistent descriptions will make the field easier to search when looking for similar assets.
4. The *Specific Location* of an asset within a department is helpful for conducting physical inventories. Examples: Room 123, Deputy Director's Office, on the south wall.
5. The *Cost* of the asset is made up of the cost for acquiring the asset and preparing it for its intended use. It should include shipping and installation costs, if applicable. If the County acquired the asset without payment, provide an estimate of what it would cost to acquire the asset (fair value) & attach documentation. An example of documentation would be a print screen of the purchase price of a comparable item.
6. Complete the fields for *Make, Model, and Serial Number* as this is the best way to positively identify an asset. If one or more of the fields aren't applicable, leave it blank; for example, furniture items generally do not have a serial number. .
7. Complete the *Grant Information* section, if applicable. This section should be completed if grant funds were used to purchase the asset or if donated assets require grant compliance.
8. Forward completed form to the Auditor's Office.
9. The Auditor's Office will forward an asset tag to appropriate department personnel. Affix tags where they are visible and easily accessible for inventory identification. Or if indicated on the form, place the tags in the department's Tag Book.

Item description from the seller

Motorola XRC 9000 Multi-Site Trunking Controller TT2215A MOTOTRBO Connect+

Motorola XRC 9000 Multi-Site Trunking Controller TT2215A for MOTOTRBO Connect Plus Digital trunking systems VHF/UHF/800/900 MHz. Unit is in Excellent condition and guaranteed fully functioning. If you have any questions, please contact us.

Handling up to 29 voice and data talk paths (2,900 users) per site, the XRC 9000 supports single or multi-site MOTOTRBO Connect Plus digital trunking systems. It enables key trunking features such as priority status for select users to have fast access when the system is in high demand and queuing capability so you are automatically notified when an open channel becomes available during high traffic times.

Keep your workforce connected. When your fleet is dispatched across the city and your workers are miles apart, you need a way to stay connected. Scalable to meet your communication needs, Connect Plus multi-site trunking is a two-way radio system that enables your work teams to not only share voice communication, they can also use integrated data applications to make their job more efficient and safer, including text messaging, location tracking and dispatch capability. All the while, you gain the benefits of TDMA digital technology like increased capacity and clear audio.

Easily manage complex voice and data communication: Choose to use the MOTOTRBO XRC 9000 Trunking Controller to operate the site resources on Connect Plus digital trunking systems. It can handle up to 29 voice and data talk paths per site (2900 users) and 6 sites on a multi-site trunking system. Expandable, adaptable and flexible: The MOTOTRBO XRC 9000 supports single or multi-site Connect Plus digital trunking configurations. A powerful multiprocessor computer provides central call processing and real-time resource management for Connect Plus digital trunking systems. And the computer is designed as an Internet Protocol (IP) device to provide flexible site connectivity.

Get calls through even when volume is high: During busy times, calls are placed in a queue. When an open channel is available, the user receives an automatic call back tone to tell them they can now complete their call. You can also choose to assign important users like managers or security a priority status so they have fast access when the system is in high demand.

Features & Benefits:

- Operates the site resources on Connect Plus digital trunking systems.
- Provides central call processing and real-time resource management.
- Handles up to 29 voice and data talk paths (2,900 users) per site.
- Supports single or multi-site Connect Plus digital trunking configurations
- Designed as an Internet Protocol (IP) device to provide flexible site connectivity.
- Enables calls to be queued during high traffic times and sends an automatic notification when an open channel becomes available.
- Enables priority status to be assigned to select users for fast access when the system is in high demand.

Note for reader: I haven't even received the item and this company is 5 Star on Quality, Condition, Value, Appearance. Received a personal Voicemail from Max stating they had some issues in-house with the Used Item ordered. He promptly explained that they had a New item (older model same exact item) that the would be sending out instead because of the in-house issues. I work in retail and these small things matter! Thank you Max!!

Regrettably, the item ordered didn't pass a final QC check before seller shipped it, but seller had great communication with me and processed a speedy refund. I've dealt with this seller several times over the years and have been impressed with their excellent customer service.

I've been shopping online as long as online shopping has been a thing - and this was probably the best experience I've ever had. I purchased two radios from UsedRadios.com and the customer service was outstanding. Prior to purchasing I called with some questions and was provided extremely professional and helpful support. After ordering, even before I could send a request for specific frequency programming they reached out to me to get started. Honestly, shockingly good customer service.

Holy smokes where do I start? Whoever packed the external hard drive I purchased truly took pride in making sure it arrived in one piece. The drive was expertly packed, with extremely fast shipping(2 days because I paid on a Saturday, but the drive arrived by Tuesday). The product was exactly as stated in the description and photos, with 100% drive health! I will be buying from TestWorld Inc again in the future, the best value I found with the best purchase experience I could have asked for!

AAAAAAAAA++++ Seller. VERY responsive to communications/offers. Exceptionally good, careful, packaging. Very fast shipping. Item was as good, if not better, than described. An exceptional deal on a very nice piece of test equipment that was essentially new (and was conservatively marked by the seller as "used" -- It even had the manufacturer's original AA batteries in it). I would absolutely deal with this seller again. Definitely recommended.

A very pleasant seller. He responded to messages quickly. They forgot to include a power cable when shipping it, but he quickly resolved the issue and shipped it the fastest way possible at his own expense.

Amazing seller! The monitor is in great condition, and matches the description in the listing. The shipping was exceptional, with TONS of packing and insulation to protect the monitor. The thunderbolt cord does have a small tear, but I guess it's to be expected considering the age. Would definitely do business with again!

The item was packaged greatly and arrived on time but after two tapes it no longer functioned. There was no output. I immediately reached out to the seller and his was totally understanding. I promptly received a full refund. Unfortunately, the item didn't function but the seller's customer service was top notch.

Instructions for Boone County Fixed Asset Addition

1. The *Fixed Asset Addition* form is available at S:\ALL\AUDITOR\accounting forms\Fixed Asset Addition.
2. Use the Fixed Asset Addition form whenever the county acquires property or assets that need to be added to inventory. This form should be completed and submitted before or with payment for the asset.
3. The *Description of Asset* field should reflect the common description used in daily operations. The same description should be used for similar assets. For example, all copiers will be described as "Copier" with the specific make and model entered in the corresponding fields below. Consistent descriptions will make the field easier to search when looking for similar assets.
4. The *Specific Location* of an asset within a department is helpful for conducting physical inventories. Examples: Room 123, Deputy Director's Office, on the south wall.
5. The *Cost* of the asset is made up of the cost for acquiring the asset and preparing it for its intended use. It should include shipping and installation costs, if applicable. If the County acquired the asset without payment, provide an estimate of what it would cost to acquire the asset (fair value) & attach documentation. An example of documentation would be a print screen of the purchase price of a comparable item.
6. Complete the fields for *Make*, *Model*, and *Serial Number* as this is the best way to positively identify an asset. If one or more of the fields aren't applicable, leave it blank; for example, furniture items generally do not have a serial number.
7. Complete the *Grant Information* section, if applicable. This section should be completed if grant funds were used to purchase the asset or if donated assets require grant compliance.
8. Forward completed form to the Auditor's Office.
9. The Auditor's Office will forward an asset tag to appropriate department personnel. Affix tags where they are visible and easily accessible for inventory identification. Or if indicated on the form, place the tags in the department's Tag Book.

Note for reader: I haven't even received the item and this company is 5 Star on Quality, Condition, Value, Appearance. Received a personal voicemail from Max stating they had some issues in-house with the Used item ordered. He promptly explained that they had a New item (older model same exact item) that they would be sending out instead because of the in-house issues. I work in retail and these small things matter! Thank you Max!!

Regrettably, the item ordered didn't pass a final QC check before seller shipped it, but seller had great communication with me and processed a speedy refund. I've dealt with this seller several times over the years and have been impressed with their excellent customer service.

I've been shopping online as long as online shopping has been a thing - and this was probably the best experience I've ever had. I purchased two radios from UsedRadios.com and the customer service was outstanding. Prior to purchasing I called with some questions and was provided extremely professional and helpful support. After ordering, even before I could send a request for specific frequency programming they reached out to me to get started. Honestly, shockingly good customer service.

Instructions for Boone County Fixed Asset Addition

1. The *Fixed Asset Addition* form is available at S:\ALL\AUDITOR\accounting forms\Fixed Asset Addition.
2. Use the Fixed Asset Addition form whenever the county acquires property or assets that need to be added to inventory. This form should be completed and submitted before or with payment for the asset.
3. The *Description of Asset* field should reflect the common description used in daily operations. The same description should be used for similar assets. For example, all copiers will be described as "Copier" with the specific make and model entered in the corresponding fields below. Consistent descriptions will make the field easier to search when looking for similar assets.
4. The *Specific Location* of an asset within a department is helpful for conducting physical inventories. Examples: Room 123, Deputy Director's Office, on the south wall.
5. The *Cost* of the asset is made up of the cost for acquiring the asset and preparing it for its intended use. It should include shipping and installation costs, if applicable. If the County acquired the asset without payment, provide an estimate of what it would cost to acquire the asset (fair value) & attach documentation. An example of documentation would be a print screen of the purchase price of a comparable item.
6. Complete the fields for *Make, Model, and Serial Number* as this is the best way to positively identify an asset. If one or more of the fields aren't applicable, leave it blank; for example, furniture items generally do not have a serial number. .
7. Complete the *Grant Information* section, if applicable. This section should be completed if grant funds were used to purchase the asset or if donated assets require grant compliance.
8. Forward completed form to the Auditor's Office.
9. The Auditor's Office will forward an asset tag to appropriate department personnel. Affix tags where they are visible and easily accessible for inventory identification. Or if indicated on the form, place the tags in the department's Tag Book.

This was the third time I purchased from this seller and will continue to do so. She sells great unpackaged products that are perfectly new. Outstanding customer service and great prices on brand new, brand name items. I'm always just slightly sceptical about buying some items for the first time from any given seller. Kudos to this seller for being honest about not only the product, but her shipments as well.

Although, I didn't actually receive the item in the listing, the seller immediately reached out and let me know about a glitch in their system that showed they still had the item when it was listed, even though they didn't. They offered to refund or find something else. I opted for a refund and it was quick and painless! Seller is great with courtesy and communication! 🙏

Instructions for Boone County Fixed Asset Addition

1. The *Fixed Asset Addition* form is available at S:\ALL\AUDITOR\accounting forms\Fixed Asset Addition.
2. Use the Fixed Asset Addition form whenever the county acquires property or assets that need to be added to inventory. This form should be completed and submitted before or with payment for the asset.
3. The *Description of Asset* field should reflect the common description used in daily operations. The same description should be used for similar assets. For example, all copiers will be described as "Copier" with the specific make and model entered in the corresponding fields below. Consistent descriptions will make the field easier to search when looking for similar assets.
4. The *Specific Location* of an asset within a department is helpful for conducting physical inventories. Examples: Room 123, Deputy Director's Office, on the south wall.
5. The *Cost* of the asset is made up of the cost for acquiring the asset and preparing it for its intended use. It should include shipping and installation costs, if applicable. If the County acquired the asset without payment, provide an estimate of what it would cost to acquire the asset (fair value) & attach documentation. An example of documentation would be a print screen of the purchase price of a comparable item.
6. Complete the fields for *Make, Model, and Serial Number* as this is the best way to positively identify an asset. If one or more of the fields aren't applicable, leave it blank; for example, furniture items generally do not have a serial number.
7. Complete the *Grant Information* section, if applicable. This section should be completed if grant funds were used to purchase the asset or if donated assets require grant compliance.
8. Forward completed form to the Auditor's Office.
9. The Auditor's Office will forward an asset tag to appropriate department personnel. Affix tags where they are visible and easily accessible for inventory identification. Or if indicated on the form, place the tags in the department's Tag Book.

Application for Appointment to Boone County Children's Services Board

The Boone County Children's Services Board was established in 2013 with the passage of a special sales tax levy in November, 2012. The Board, in partnership with the Boone County Commission, is charged with making Boone County a better and healthier community through the provision of services to protect the well-being and safety of children under the age of nineteen (19) and their families. The Board's goal is to maximize positive outcomes in a transparent, accountable fashion in recognition of the fact that the taxpayers of Boone County are an important stakeholder and beneficiary of this program. The Board's partnership with the Boone County Commission allows it to benefit from the ability to hire dedicated, professional staff with competitive salary and benefits packages into a professional environment with supports that include facilities maintenance, purchasing, human resources, legal, auditing, and other organizational supports and synergies that stem from being integrated into Boone County government as a County department. This partnership also allows the Boone County taxpayers to benefit from a coordination of social service spending at the County level in order to avoid duplication of effort, ensure efficient spending of public resources, and increase transparency. Finally, being part of County government allows the Children's Services sales tax proceeds to retain its character as "local tax dollars," allowing for the pursuit of matching federal dollars through various federal programs administered through the State Department of Mental Health, State Department of Social Services, and other federal matching programs.

Composition of the board of directors must meet the statutory requirements of the enabling legislation. Additionally, persons appointed to the board must comply with the provisions of the bylaws of the board and the conflict of interest policies promulgated by the County Commission and the Board. As appointees of a statutorily created Board with powers to direct the expenditure of public funds, board members have certain fiduciary duties, which require that they conduct themselves without conflict to the interest of the Children's Services Board or the Boone County taxpayer. Certain types of conflicts of interest are not prohibited, but disclosure is critical. Disclosure should not be construed as creating a presumption of impropriety or as automatically precluding someone from participation. Rather, it reflects the recognition of the many factors that can influence one's judgment and a desire to make as much information as possible available to other participants. Potentially conflicting interests may relate to programs and services or operations, such as contracts with third parties.

Have you ever volunteered with or been employed by an agency that may provide services to eligible service recipients of the Children's Services Fund (examples include the following services provided to one under the age of 19 or their families: outpatient chemical dependency or psychiatry treatment services, counseling services, or other services as a result of being abused, neglected, runaway, homeless, or emotional disturbance, or services to an unwed mother)? If so, please list the Agency, a description of the services provided by the Agency, the time frames of your involvement, and contact person and contact information for said Agency.

No

Section 210.861, Revised Statutes of Missouri, prohibits membership on the board by certain persons, including current County Commissioners, those having any financial interest in any agency

receiving funds from the Children's Services Fund, and those employed by any agency receiving funds. In addition, the Boone County Commission, based on its experience with other board appointments and the experiences of other counties in the administration of other Children's Services funds, prohibits membership on the board by those who are board members or volunteers with agencies that receive funds, or are employed by, have a financial interest in, serve on the board of, or otherwise volunteer with affiliated organizations of those agencies receiving funds. For purposes of this policy, "affiliated organizations" are those organizations which are controlled by or have systemic legal relationships with an agency who receive funds from the Children's Services Fund. [For example, two entities controlled by the same Board of Directors or the same administration team or an entity that relies on another almost exclusively for its financial support. Many other examples of such affiliated organizations exist, and the intent of this policy is to examine the substance of the relationships between entities and not the strict legal organization they have chosen to employ.] The questions below are designed to determine if a prohibited conflict of interest exists and to allow for the disclosure of any conflicts that do not amount to a prohibition but, absent disclosure, would tend to indicate that a board member may have an appearance of a conflict of interest.

For purposes of the following questions, "related family member" is defined to include relationships within the third degree by blood or marriage. [Relationships in the third degree include mother, father, child, brother, sister, (including half, step and in-law relationships in these same categories), and grandparent, grandchild, aunt, uncle, niece, nephew, great grandparent, great grandchild.]

Do you or any related family member have any financial interest, directly or indirectly in any agency or entity, or are employed by any agency or entity, or volunteer or serve as a Board member of any agency or entity or any "affiliated organization" of any such agency or entity, that has applied for or receives funds from, or plans to apply for funds, or otherwise contracts, or subcontracts with the Boone County Children's Services Board? If yes, please explain.

My son, David Aulgur, is employed by Columbia public schools

Have you or a related family member applied for eligibility and been determined eligible or ineligible for funding from the Boone County Children's Services Fund at any time? If yes, identify the individual who applied, their relationship to you and the date of application.

No

Explain briefly why you are seeking this position and identify any special qualifications you have for this position.

To continue my work on this board
